DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 19-62 are rejected under 35 U.S.C. 102(e) as being anticipated by Takahashi et al (US6518547).

Takahashi et al discloses a heat treatment apparatus comprising a support member (24), a plurality of lamps (11a-c) located above the support member (24) wherein each of the lamps act as a heat source and comprises an illuminant/filament coil (110a, 110b) generating a light (column 7, line 35) in a direction perpendicular to a projection face (14), a gold film (column 7, lines 5-7) inner surface (112) covering the illuminant and which has a curvature (Figures 2-3) to reflect light wherein the inner surface forms a semi ellipsoidal/conical shape (column 7, lines 11-14; column 9, lines 55-60) which emits light toward object by one time reflection, a projection face (14) through which light is projected (column 5, lines 53-56), an electrode part (Figure 3, T) to supply power (column 7, line 39), a temperature control part provided to cool and control the temperature of the lamps (column 6, lines 50-55; column 9, lines 49-51), and a plurality of third and fourth lamps (Figures 10, 16, 18).

Art Unit: 3742

Allowable Subject Matter

3. Claims 1-8 are allowed.
4. The following is an examiner's statement of reasons for allowance: the prior art of record neither discloses nor suggests a plurality of lamps including at least one first lamp and a plurality of second lamps each having an irradiation area smaller than that of the first lamp.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Shawntina T. Fuqua whose telephone number is (703) 305-2581. The examiner can normally be reached on Monday-Friday 8-4:30 pm.
